Activity Kit

12 Magazines in a year.

As of today, for cognitive skill development of students, there are very few magazines that provide valuable information in the emerging field of Science & Technology. Distinguished, eminent scientists & learned people like Prof. C V Raman, Prof. J C Bose, Prof. Jayant Narlikar, Dr. Abdul Kalam and many others have made all round efforts to ignite the minds of young students in allied fields. To disseminate the knowledge on Science & Technology, Shri Balvant Parekh Science City has started the **SCIENCE EXPRESS** magazine in Gujarati language since 2010, and also in English language which is the need of the day and hope that it will help to boost the Scientific Temperament of young generation.

SCIENCE EXPRESS will cover topics like -

Junior Scientist * Origami * Green Earth * Rapid Maths * Career 360° * X-ray * Nano news * Rainbow * Olympiad * Good food * Magic machine * Project * Cyber cafe * Science Story * Reflection * Echos * Raman Effect * Science fiction * Path of glory * Heart beats * ...and much more about Magic of Chemistry, fun with Physics, Joy of Zoology & Mental Maths.

1. To develop interest in Science, Computer and Technology among the students.
2. To encourage the students in deeply study of Science and Technology.
3. To create scientific temperament among the students.
4. To develop an insight into competitive examinations for students.

The Indian Science & Indian Cyber Olympiad are designed to test the students on their understanding of science. The trust has launched this Olympiad since 2008. More than 4.25 lakh participants have benefited in Olympiads. ISO-ICO nurture the aptitude of the students in S & T and creates the urge to carry out Experiments and apply Science in Everyday Life.
